school-aged childcare program description

Our multi-age program offers a rich, engaging array of activities and experiences within a fun developmentally appropriate program model. Youth participate in making choices about how they prefer to spend their time. Activity choices include outdoor play, gym time, free play, social enrichment and themed activities. The program provides an afternoon snack.

Our program provides a warm, caring atmosphere where children are accepted unconditionally. Our program is inclusive, open to all children regardless of color, race, economic status, religious background, or family composition. Staff members strive to create an environment, which is a careful balance between reliable security and stimulation that fosters exploration and growth.

School-aged programs improve academic performance, social and developmental outcomes, contribute to healthy lifestyle options, and prevent many risky behaviors. The key factors in supporting positive outcomes include access to and sustained participation in quality programming with strong partnerships with schools, families and the community. In collaboration with Newburyport Youth Services, the YWCA school-aged program draws on the 40 Developmental Asset Model. This model helps young people grow up healthy, caring and responsible and engages all the adults in children's lives (parents, youth staff and school personnel) in that process.

Monthly installments are based on 10 even payments of your annual contract. Monthly tuitions are debited through our online registration portal, Community Pass on the 15th of the previous month starting in August and ending in May.
